Brought Here For Burial.

Mrs. Louise George, formerly of this city, died at her home in Kansas City Sunday morning at 7 o'clock. She was 80 years of age. She is survived by three daughters, Miss Louise George, Mrs. Lizzie Hendenmeyer and Mrs. Gusie Middleton of Kansas City; also two sons, Charles George of Kansas City, and Otto George of El Paso, Texas.

The funeral was held in Kansas City Tuesday morning, after which the body was brought to Lexington for burial.

Benefit For The Play Ground.

Friday night, December 9th, a show will be given in the Wentworth gymnasium, the proceeds of which will go toward defraying the expense of grading Goose Pond. This show, in all probability, will surpass anything ever given in Lexington; because only the best talent in the city will be on the program. Don't make any other date for that night.

Things to Learn.

Learn to laugh; a good laugh is better than medicine.

Learn how to tell a story; a good story, well told, is as welcome as a sunbeam in a sick-room.

Learn to keep your own troubles to yourself; the world is too busy to care for your ills and sorrows.

Learn to hide your aches and pains under pleasant smiles; no one cares to hear whether you have headaches, earaches, or rheumatism.

Learn to meet your friends with a smile; a good-natured man or woman is always welcome, but the dyspeptic is not wanted anywhere.

Above, all, give pleasure; lose no chance of giving pleasure.

You will pass through this world but once.

Any good thing, therefore that you can do, or any kindness that you can show to any human being, you had better do it now; do not defer or neglect it.

For you will not pass this way again.

Is This So, Girls?

Faculty Concert.

A pleasant musical event of the season was the concert at Central College for Women Monday evening by the Conservatory Faculty of Music, assisted by Miss Dills of the Department of Expression.

The opening number is the first of four well-known offertories by the French composer, Batiste, and is a favorite concert selection with organists. It is a highly ornate composition with severe manual and pedal requirements. Mr. Conrad played the demanding number with great security and the utmost freedom; and the fluency and verve, together with brilliant registration communicated the player's conception to each hearer. A double organ number closed the program consisting of Moszkowski's Serenata, and Silver's Jubilate Deo. Recalled Mr. Conrad gave a charming rendition of the "Land of the Sky Blue Water."

Among the new artists on this year's program the first to appear was Mrs. Gregory, head of the Voice Department. She placed her audience in a most agreeably receptive attitude by her charming stage presence and pleased them immensely by her artistic and intelligent interpretations. Her selections were choice and served to exhibit her versatility; noticeably, the legato work in the Thomas number and the colorature in the waltz song from Romeo and Juliet. As an encore Mrs. Gregory gave The Cuckoo by Grant-Schaefer.

Every audience loves a reader and Miss Dills found sympathetic listeners waiting her appearance. She established at once the intangible personal equation between herself and her audience. Her dignified selection was a worthy vehicle and with it Miss Dills made friends for herself and her department.

The program furnished a delightful variety in violoncello numbers by Mr. Little. The Romance by Fischer afforded opportunity for a beautiful legato tone which the player deftly drew from his instrument. Mr. Little gave the audience such genuine pleasure that he was compelled to respond to an encore: giving the "Love Song" by Nevin.

The piano feature of the concert was contributed by Mrs. Scott, whose selections gave ample range for attainments and capabilities. The Romance by La Forge was heard in Lexington for the first time; and the number was delivered in a beautiful cantabile style. The group closed with Mac Dowell's brilliant Concert Etude.

Curious Cures In China.

In China the art of healing is still based on faith and superstition.

To the Chinaman evil spirits play a great part in all illness. The earth is supposed to be full of evil spirits ready to pounce upon the unwary whenever they see an opportunity.

Should a child be ill, it is believed that the soul has left the body. It must be called back before the child can recover. Calling for the return of the soul is a custom prevalent in all parts of China.

It is also the custom to pray for holy medicine. A patient must pay a visit to the temple and take from the altar a tube containing numbered sticks. He passes the tube over the incense several times until one stick falls out. This is picked up and the number on it is read. A corresponding slip containing a prescription is then handed to him.

As a treatment for apoplexy, serpent's liver is surely unique, but this is prescribed by the Chinese doctors. Pig's feet and deer's tendons are prescribed for weak legs, and fishes heads for headache and giddiness.

Human flesh is supposed to be efficacious in the case of certain illnesses, and young people will have pieces of flesh removed to make medicine for a sick father.

Mr. and Mrs. J. H. Keeley of Eldorado Springs, Mo., arrived Thursday evening and will spend Thanksgiving with the family of C. J. Willyard.

SECOND SPECIAL SESSION WILL COST STATE \$33,000

\$154,000 Amount of Two Calls by Governor—Grand Total Is \$449,000.

The second special session called by Gov. Hyde, which adjourned Thursday, will cost the state \$33,000 for per diem and mileage and contingent expenses. The first item calls for \$26,000 and the second \$7,000. This makes a total of \$449,000 that has expended on the Legislature since Governor Hyde has been inducted into office.

The cost of the regular session was \$295,000, the greatest in the history of the state of any regular session. The expenses of the first session called by the Governor totaled \$121,000. This expense was boosted thousands of dollars by members of the Legislature loading down the payroll with their wives, sons and daughters. —Missouri Journal.

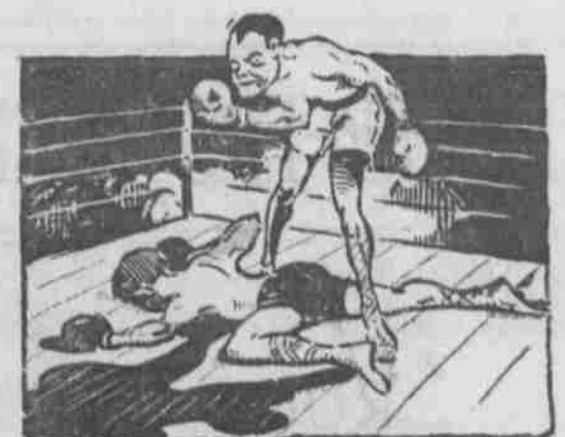

Making Fame For Missouri.

When American agricultural colleges sent their leaders to New Orleans recently to the annual meeting of the Association of Land-Grant Colleges, it was discovered that more than ten per cent of their number were Missourians—either officials or alumni of the Missouri College of Agriculture. The Missouri alumni in this list number fourteen and are occupying high official positions in the agricultural colleges of Alabama, Arkansas, Louisiana, Missouri, New York, North Carolina, Oregon, Tennessee, Kansas, and Texas.
